

# Kothakonda Sunny

Offensive Security / Penetration Tester (Fresher)

Hyderabad, Telangana, India | +91 7093297758 | sunnykothakonda4@gmail.com

## LINKS

GitHub: [github.com/sunny1451](https://github.com/sunny1451)  
LinkedIn: [linkedin.com/in/sunny-kothakonda-13616a281](https://linkedin.com/in/sunny-kothakonda-13616a281)

## TECHNICAL SKILLS

### Programming

Python  
C (Basics)

### Web Technologies

HTML • CSS • React.js • Flask (Basics)

### Security Concepts

OWASP Top 10  
Web Application Security  
SQL Injection  
XSS  
Secure Data Handling  
Client–Server Architecture

### Tools & Platforms

Burp Suite  
Nmap  
Wireshark (Basics)  
Linux  
Git  
Cisco Packet Tracer

## EDUCATION

### Bachelor of Technology (B.Tech)

Avanthi Institute of Technology  
4rd Year (Ongoing)

### Diploma

Government Polytechnic Parkal College  
CGPA: 7.75

### Schooling

Oxford English Medium High School  
CGPA: 9.8

## INTERESTS

- Penetration Testing
- Ethical Hacking
- Cybersecurity Research
- Learning New Technologies

## LANGUAGES KNOWN

- ENGLISH
- HINDI
- TELUGU

## SUMMARY

Aspiring Offensive Security and Penetration Testing professional with a strong foundation in **Linux, networking, Python, and web technologies**. Hands-on experience through academic and self-practice projects in **web application security, vulnerability assessment, reconnaissance, and secure data handling**. Familiar with **OWASP Top 10 vulnerabilities, Nmap, Burp Suite, Wireshark, and basic exploitation techniques**. Seeking an internship or entry-level cybersecurity role to apply practical security skills and grow as an offensive security professional

## EXPERIENCE / TRAINING

### CRAW HYDERABAD

Trainee | October 2025 – Present | Hyderabad, India

- Gained practical exposure to cybersecurity fundamentals and security concepts.
- Worked with Linux and networking concepts.
- Practiced ethical hacking and penetration-testing methodologies.
- Explored reconnaissance, enumeration, and vulnerability identification.
- Worked with commonly used security tools in controlled lab environments.

## OFFENSIVE SECURITY PROJECT(S)

### Project 1 — Web Application VAPT

Burp Suite | OWASP Top 10 | Linux

- Tested web applications for **OWASP Top 10 vulnerabilities** in an authorized lab.
- Performed reconnaissance and vulnerability validation using **Burp Suite**.
- Documented vulnerabilities with severity, impact, evidence, and remediation.

### Project 2 — Network VAPT

PenVAS/Greenbone | Linux | Vulnerable VMs

- Performed network scanning and vulnerability assessment in an isolated lab.
- Used **Nmap** for host discovery, port scanning, and service enumeration.
- Used **OpenVAS/Greenbone** to identify security vulnerabilities.

### Project 3 — Python Automated VAPT Scanner

Python, Nmap, HTML, Linux

- Developed a Python tool to automate basic **VAPT scanning**.
- Integrated **Nmap** for network discovery, port scanning, and service enumeration.
- Generated **HTML security reports** with vulnerabilities and remediation.

## ACHIEVEMENTS

1st Prize — College-Level Smart India Hackathon | Team Leader

- Secured **1st Prize** at the college-level Smart India Hackathon.
- Led the team in developing and presenting the **Secure Data Wiping** project.
- Coordinated team activities, technical development, and project presentation.

## CERTIFICATIONS

Certified LLM Security Expert (CLLMSE) – from Red team leaders

Cybersecurity –from Cisco

Python – from Kaggle
